

# Modeling for Men of Action

## Code Aster Services

## Benefitting from modeling – OBSTACLES

### simulation tools

hardware, software

high licence fees

→ fixed cost → risk

### know how

model

model application

A specialist needs to be employed.

→ fixed cost → risk

→ risk of know how loss

### benefit

strategy / targets

Does the benefit offset the cost and risk?

What is simulation good for?

## Standard solution: simulation consulting

**simulation tools**

hardware, software

none

**know how**

model

model application

none

**benefit**

strategy / targets

report: values and recommendations

## New approach: tortueteC Code Aster Services

### simulation tools

hardware, software

- no license fees
- no fixed cost
- availability and efficiency on demand

### know how

model

model application

- buildup of know how on demand
- scalability of modeling know how  
From model application →  
to model development →  
to software development
- know-how backup/restore solution

### benefit

strategy / targets

- company specific modeling strategy
  - cost savings by reduced testing
  - time savings by less trial&error

## New approach: tortueteC Code Aster Services
